

A better way to MSK.

PROCEDURES

Provide treatment faster, with **minimally-invasive outpatient procedures.**

EQUIPMENT

Achieve pinpoint accuracy, with **industry-leading ultrasound technology.**

EDUCATION

Gain proficiency quickly, with **hands-on education.**

Power your practice with UGPro.™

Ultrasound-guided procedures (UGP) are transforming MSK, delivering targeted results faster, with less invasive procedures. The potential for your practice is huge—and Konica Minolta is here to help you harness it, with the UGPro Solution. UGPro is a focused, comprehensive solution that unites the latest ultrasound and procedural innovations with hands-on education to get you equipped and up to speed fast. So from Achilles tendonitis to shoulder tendonosis to epicondylitis, you can improve patient outcomes and grow your practice.

Lateral epicondylitis

Extensor tendonitis

Labrum tears

Osteoarthritis

Patellar tendonosis

Everything you need. Unlike any other approach.

It takes more than equipment to realize the full potential of UGP in your practice. That's why Konica Minolta takes a uniquely comprehensive approach with the UGPro Solution, bringing together the latest procedural technologies, the ultrasound equipment to optimize those procedures with keen visual guidance and streamlined workflow, and the education you need to achieve proficiency.

UGPro Solution

Equipment designed for MSK

Konica Minolta ultrasound systems provide the power, clarity, functionality and ease of use to optimally support UGP therapies. For instance, the SONIMAGE HS1 Compact Ultrasound System and the SONIMAGE® MX1 Portable Ultrasound System offer real-time evaluation and needle-guidance software for clear visualization, with an array of probes designed to meet a full range of needs in your MSK practice.

The latest procedures for pain relief

Konica Minolta is partnering with the most innovative developers of UGP technologies to bring groundbreaking procedural solutions to our UGPro Solution initiative—including a system that targets the source of chronic tendon pain, debriding only degenerative tissue for percutaneous tenotomy and fasciotomy.

Get up to speed, faster

UGP proficiency is a learn-by-doing process, and the UGPro Solution and UGPLearningHub™ are here to help you do just that, with robust, hands-on education. Our UGPLearningHub leverages the technical and clinical knowledge of ultrasound KOLs and Konica Minolta experts, in educational offerings to fit your needs. Nationwide programs plus dedicated learning centers in Atlanta, GA, Chicago, IL, Anaheim, CA and the NYC area.

KONICA MINOLTA HEALTHCARE

Konica Minolta Healthcare is a world-class provider and market leader in medical diagnostic imaging and healthcare information technology. With over 75 years of endless innovation, Konica Minolta is globally recognized as a leader providing cutting-edge technologies and comprehensive support aimed at providing real solutions to meet customer's needs and helping make **better decisions sooner.**
