

Automate Insurance-Related Tasks for Enhanced Productivity and Profitability.

Clear Integration. Clear Solution.

Exa[®] Clear automates common clinical and administrative tasks to help radiology practices optimize reimbursements and increase revenue. Integrated directly into the Exa[®] RIS workflow, Exa Clear delivers unmatched efficiency with real-time patient insurance eligibility and co-pay responsibility. No separate workstation or portal is required. Exa Clear enables fully automated, real-time medical insurance and billing submission, allowing practices to capture covered and non-covered costs to improve profitability.

Three Modules. One Integrated Solution.

Exa Clear is Made Up of 3 Separate Yet Integrated Modules:

1. Authorization

Automatically satisfy specific authorization requirements for every procedure, in every state, for every payer to simplify the entire authorization process for staff and patients.

2. Eligibility

Seamlessly verify patient eligibility for an imaging procedure during appointment scheduling for a more efficient workflow.

3. Estimation

Provide the patient with an accurate upfront estimate for out-of-pocket costs to ensure price transparency and comply with the 2022 No Surprise Act.

Eligibility / Estimation: Niewind, Danielle E (NC1577) 03/03/1992, F, 32Y

Eligibility Status: ✔ Benefits Date: 06/12/2024

Reduce Administrative Burden

- Automate each step of the scheduling process – including authorization, eligibility and estimation – to reduce tasks and prevent staff burnout
- Support more efficient scheduling, particularly for the exams that require attention, so staff can focus on exceptions to drive productivity

Increase Revenue

- Eliminate inefficient, time-consuming and often manual tasks that may be error-prone to reduce eligibility denials. Eliminate lost revenue due to missed authorizations or rescheduled appointments and increase reimbursement payments
- Better capture costs and payments that are the patient's responsibility, including co-insurance, co-pay, deductible, maximum balance due and maximum out-of-pocket
- Reduce the need for collections, improve billing performance and free up resources to realize more productivity and profitability

Improve Patient Satisfaction

- Streamline the entire patient experience, from scheduling to payments, to expedite the imaging process and increase overall satisfaction
- Efficiently capture any required prior authorizations to avoid rescheduled or missed appointments due to insurance issues and improve the patient experience

Maximize Efficiency

- Streamline the prior-authorization process by proactively engaging with the patient's insurer across multiple payer portals directly from the Exa worklist – without requiring a separate portal, workstation or equipment
- Integrated as part of the existing workflow that staff use every day, so it's always accessible and easy to use to drive efficiency
